View, Edit, Change and Cancel Expense Report Overview

This Quick Reference Guide (QRG) walks **Employees** through the process of viewing expense reports in Workday and performing related actions including canceling, changing, or editing an expense report. By the end of this QRG, users will be able to view, change, edit, and cancel existing expense reports depending on the status of the report.

- Use Edit to modify expense reports you started but did not submit (draft status).
- Use Change to make changes to an expense report that you already submitted but has not been paid (in-progress and approved status).
- Use Cancel to cancel a report entered in error. You cannot delete a report, but it can be canceled.

The table below describes the different expense report statuses in Workday:

Status	Description	Actions allowed
Paid	Report that has been paid (funds disbursed)	View
Draft	Report yet to be submitted	View, Edit, and Cancel
In Progress	Report pending for some action in the business process	View, Change, and Cancel
Approved	Report received all the required approvals	View, Change, and Cancel
Canceled	Report that has been cancelled	View

NOTE	There is no longer an expenditure credit form. If you were overpaid, you will need to pay these funds via check for the correct amount being repaid to UVA and can be deposited via remote scanner. Contact your fiscal administrator to identify the contact who has a remote scanner close to you. If you cannot identify someone who has a remote deposit scanner, there is now an enhanced deposit form that will capture the needs of both a deposit and an expenditure credit. For more information, please refer to the Cashier's Office page.
