Flights
6. What are the benefits of booking flights through TravelUVA?
   a. Flights booked through TravelUVA are supported by Christopherson Business Travel (CBT) with 24/7 Urgent Assistance available and designated University advisors that can be
reached via phone or email. UVA’s airline contracts are also pre-loaded and can only be accessed through TravelUVA or a CBT advisor and have many benefits including a 2-10% discount on airfare, preferred seats, priority boarding, flight protection, and name change flexibility (benefits vary by airline). See our website for a full list of TravelUVA benefits.

7. **How do I ensure that my KTN (Known Traveler Number) is applied to my reservation to get my TSA PreCheck and Global Entry benefits?**
   a. Once you add your KTN to your Concur profile, it will be applied to future reservations made in Concur or with a CBT advisor.

   a. Yes! Add your frequent flyer number to your Concur profile at least 15 minutes prior to booking and you will earn miles on any trip booked through TravelUVA. We recommend using a University T&E Card to make all reservations, however, if you prefer to book on a personal card to earn credit card points, you can use that personal card in TravelUVA and earn credit card points. Please keep in mind that University policy does not allow travelers to be reimbursed until after the travel is completed if they pay with a personal card.

10. **Can I still earn American Airlines frequent flyer miles if I book through TravelUVA?**
    a. Yes, UVA has an agreement with American Airlines so that you can continue earning frequent flyer miles and other benefits. Add your AAdvantage number to your Concur profile and you will earn miles on all American Airlines reservations booked through TravelUVA.

11. **Why does my name run together with no spaces on my airline ticket?**
    a. It is common for airlines to run first and middle names together on the ticket. This is due to limitations in airlines’ ticketing systems. As long as your name is spelled correctly and in the correct order, it’s fine.

12. **Why is the airfare price higher in TravelUVA?**
    a. TravelUVA has real-time availability so airfare pricing will be the same as what you are seeing online or lower if booking through one of UVA’s airline contract discounts when comparing the same carrier, dates, flights, and fare class of service. Christopherson Business Travel also has a lowest price guarantee. If a lower fare is found on another online source for the same air carrier, fare class of service, identical fare rules and restrictions, submit the itinerary to CBT via your travel advisor team (UVA@CBTravel.com) or the Online Help Desk (OnlineSupport@CBTravel.com) within one (1) hour of the original booking and they will honor the lower price.
    i. You may see a lower fare online if you are looking at a flight with a different connection or if you are viewing the Basic Economy fare. Basic Economy fares (which are completely non-refundable/non-changeable) are strongly discouraged and are not offered as a booking option in Concur.
Hotels

13. If I book a hotel on behalf of a guest, why doesn’t the hotel send me the final invoice?
   a. When you call the hotel after booking to request that the room and tax be charged to your T&E card, you will also need to provide them with your email address and request that they send you a copy of the final invoice. Hotels do not have access to the contact information of the person who booked the reservation.

14. Why doesn’t Christopherson Business Travel send me the final hotel invoice?
   a. A final hotel invoice is not accessible by travel agencies and can only be requested directly from the hotel since the hotel may have added additional charges to the bill such as parking, food purchases, etc.

15. Can I book a conference hotel in TravelUVA?
   a. Conference hotels cannot be booked through Concur. Conference hotel rates should be booked directly through the conference.
