View, Edit, Change and Cancel Expense Report Overview

This Quick Reference Guide (QRG) walks Employees through the process of viewing expense reports in Workday and performing related actions including editing, changing, or canceling an expense report. By the end of this QRG, users will be able to view, change, edit, and cancel existing expense reports depending on the status of the report.

- Use Edit to modify expense reports you started but did not submit (draft status).
- Use Change to make changes to an expense report that you already submitted but has not been paid (in-progress and approved status).
- Use Cancel to cancel a report entered in error. You cannot delete a report, but it can be canceled.

You can also search for an expense report directly if you know the expense report number. Simply enter the number (e.g., ER-0000155222) in the Workday Search bar and press Enter.

There is no longer an expenditure credit form. If you were overpaid, you will need to pay these funds via check for the correct amount being repaid to UVA and can be deposited via remote scanner. Contact your fiscal administrator to identify the contact who has a remote scanner close to you. If you cannot identify someone who has a remote deposit scanner, there is now an enhanced deposit form that will capture the needs of both a deposit and an expenditure credit. For more information, please refer to the Cashier’s Office page.
