

Account Certification

Policy & Procedures

UNIVERSITY
of
VIRGINIA

Welcome to the Workday Account Certification Policy & Procedures lesson.

This is the first of two lessons in the Account Certification course. This lesson will focus on the policy and procedures related to Account Certification. The second lesson will focus on how to complete the account certification in Workday.

Read through all the slides. On some slides, you will notice a blue tab in the top right corner of the slide. This tab will include a link to additional information. Make sure to right click on the words in the tab and select Open in New Tab, so that you do not lose your place in the slide deck. As an example on this slide, the blue tab includes a link to the UVAFinance Website homepage.

According to the Reconciling Unit Accounting Records policy, [FIN-023](#), the timely reconciliation of transactions is an important part of responsible stewardship of University resources and an effective system of internal controls.

What is reconciliation:

A systematic review of accounts against source documents.

Purpose:

Account Certification | What is Account Certification?

The Workday Account Certification process verifies that the reconciliation was completed. Preparers and/or approvers are responsible for the following activities:

Review

Both Preparers and Approvers for Account Certifications will review the activity in ledger accounts that need to be certified.

Identify Variances

Both Preparers and Approvers for Account Certifications will identify issues as variances.

Remediate Variances

The Preparer for Account Certification will ensure the variances get remediated, if necessary.

Approve

The Approver for Account Certification will approve ledger accounts that they want to certify.

Account Certification | Why Do We Reconcile?

We reconcile our accounts monthly:

To maintain the integrity of the University's accounting records and to protect the interests of the University

Critical for:

Accurate Reporting

Internal Controls

So that:

- The information from the University's financial systems is accurate, complete, and recorded in a timely manner;
- The information can be relied upon for making financial and administrative decisions; and
- Irregularities are quickly detected, reported to the appropriate authorities, and resolved to prevent recurrences.

These three roles are required to view and complete Account Certifications.

Base Role

Employee requests the Base Role using System Access Request in Workday.

The Base Role is assigned to the Worktag (Project, Grant, or Cost Center/Gift).

Preparer/Approver Role

These roles are automatically assigned based on the Base Role.

These roles are assigned to each monthly Account Certification. Once assigned, it will not change even if Base Role changes.

These roles can be reassigned by Workday Finance Support.

Finance Reporting Viewer Role

Employee requests this role using System Access Request in Workday.

This role is assigned to the employee's position.

Account Certification | Base Role Assignments

Workday assigns The Preparer and Approver for the Account Certification roles by looking at the Base Role for the FDM Worktag Combination on the Account Certification. Take a moment to review the table below.

Base Roles

FDM Worktag Combination	Sample Account Cert Naming	Preparer	Approver
Grant not in GRH005 Federal Financial Aid (FFA) <i>Including Cost Share</i>	GR000048	Grant Financial Analyst	Grant Account Certifier
Grant in GRH005 Federal Financial Aid (FFA) <i>ex: Federal Work Study</i>	GR000081 / CC0195	Cost Center Fiscal Specialist	Cost Center Manager
Project	PJ12345	Project Budget Specialist	Project Budget Manager
Designated + Cost Center	DN000050 / CC0195	Cost Center Fiscal Specialist	Cost Center Manager
Gift (Allocated) + Cost Center	GF123456 / CC0195	Cost Center Fiscal Specialist	Cost Center Manager
Gift (Non-Allocated) + Cost Center	GF987654 / CC0195	Cost Center Fiscal Specialist	Unit Gift Manager

Account Certification | Base Role Assignments

If we look at the row below, for Non-Federal Work study Grants or all Grants that are not in the GRH005 Federal Financial Aid Grant Hierarchy, Workday looks at the roles on the Grant to assign the Account Certification. Anyone listed as the Grant Financial Analyst on a Grant will be assigned as a Preparer and anyone listed as a Grant Account Certifier will be assigned as an Approver.

FDM Worktag Combination	Sample Account Cert Naming	Preparer	Approver
Grant not in GRH005 Federal Financial Aid (FFA) <i>Including Cost Share</i>	GR000048	Grant Financial Analyst 	Grant Account Certifier 

Remember the Base Role is assigned to the Worktag, so the Base Role would be assigned on each Grant worktag and each Project worktag. For Designated worktags, Federal Financial Aid Grant worktags and Gift worktags the Base role is assigned to the Cost Center expect for Non-allocated gifts. For Non-allocated Gifts, the Unit Gift Manager is listed on the Gift worktag.

Accounting Certification | Gift Worktag

How do I know if a Gift is Allocated or Non-allocated? Use **FDM Reference - Gift report**

If the gift has something listed in the Allocated Gifts - Alternate Hierarchy like the first two lines below, then it is an **Allocated Gift**, and the Account Certification will go to the **Cost Center Manager** for approval. If the Allocated Gift-Alternate Hierarchy column is blank like the gift in the last row, then the gift is **Non-Allocated** and the Account Certification will go to the **Unit Gift Manager** for approval.

FDM Reference - Gift

FDM Reporting: 4/7/2022

412 items

Reference ID	Gift	Gift Hierarchy Level 1	Gift Hierarchy Level 2	Gift Hierarchy Level 3	Gift Hierarchy Level 4	Allocated Gifts - Alternate Hierarchy	Gift Type	Unit Gift Manager(s)

Allocated

Non-Allocated

Account Certification | Understanding Role Assignments

Below is a high-level overview of the Account Certification process:

Account Certification | Understanding Role Assignments

If you aren't sure if you have the role that you need, you can go to the **UBI Workday Security Roles App** to see if you have the role. You can search in many ways. The easiest way to see if you have an Account Certification Base Role, the Finance Reporting Viewer role or a Preparer or Approver for Account Certification role on a previously created Account Certification is to search by your name and then search for the role or roles you are looking for. You can also search by Cost Center to see anyone with that role in a specific Cost Center.

Account Certification | Understanding Role Assignments

Can there be more than one person in a role?

Yes, but

If there are two people with the same base role for a specific worktag combination at the time the Account Certification is created, both of those people will be given the role of Preparer or Approver for Account Certification.

Example: If you have two Cost Center Fiscal Specialists when the Account Certification is created, both employees will be listed as the Preparer.

but

The first person to act on the Account Certification (using the Save for Later button) will be the only one to see it in their Awaiting Me report. In other words, you can have two or more people with the same role, but you cannot share duties for the role or have more than one person work on the same Account Certification Workday process.

How to get access to Account Certifications

Previously Created Account Certifications

If the account certification has already been created, was assigned a preparer and approver, and has not yet been certified, then you will need to request Reassignment.

Request Account Certification Reassignment Quick Reference Guide

Request Account Certification Reassignment Overview

This Quick Reference Guide (QRG) is designed to walk an employee with an [Account Certification role](#) through the steps to request Account Certifications reassignment. Once an Account Certification has been created and assigned to an employee, the only way for another employee to take action on that Account Certification is to request the Account Certification be reassigned. This process is meant for extended absences, change of role (assignment), or when an employee is no longer at the university. By the end of this QRG, you will be able to request Account Certification Reassignment.

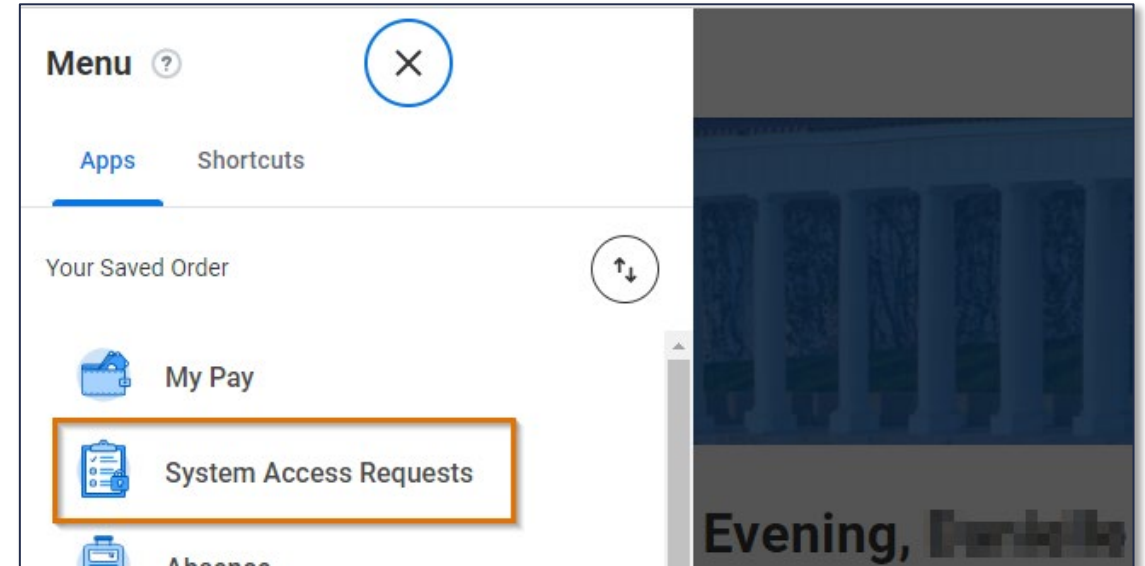

Account Certification Reassignment only impacts **current** (already generated) Account Certifications. To ensure that future Account Certifications route to the appropriate individuals as Preparers/Approvers, complete a [Workday System Access Request](#) to request the appropriate Account Certification role. See list of [Account Certification roles](#) to request for Preparer/Approver.

Request Account Certification Reassignment QRG

Future Account Certifications (not yet created)

If you need access to future account certifications, use the Workday System Access Request to request the Base Role for each worktag.

Important to Note:

Preparer and Approver roles are required, and the same individual cannot be assigned as both.

Account Certification | Certifying Grant Revenue

[Related FAQ](#)

If you are a preparer or approver for Account Certifications, you should be certifying and marking variances for the expenditures in the expenditure ledger accounts which include the 5000-level payroll related ledger accounts (any ledger account starting with a 5) & the 6000-level non-payroll expenditure related ledger accounts (any ledger account starting with a 6).

You do not need to certify the 4000-level revenue related ledger accounts (any ledger account starting with a 4). The OSP team is responsible for reconciling grant revenue. So, you can leave those lines as they come into the Account Certification. You don't need to review them or mark a variance.

Ledger Accounts to Certify	Attachments	Process History	
Ledger Accounts to Certify 4 of 105 items			
Company	Ledger Account	Ledger Account Balance	Amount to Certify for Account
The Rector & Visitors of the University of Virginia	4110:Federal Grants and Contracts - F&A	(11,810.70)	(11,810.70)

You are not required to review or verify the Investment Income Ledger Accounts as part of the Account Certification review process.

These Ledger Accounts have been suppressed from Account Certifications:

- 4400: Investment Income
- 4401: Investment Income – Debt Proceeds
- 4402: Investment Income - OSP

Investment income (gains or losses) in the Investment Income ledgers are not spendable and are not part of your Fund Balance reports. The gains or losses get rolled back into the investment every month and is managed and reconciled by Central Finance.

What does this mean for Account Certifications?

If there is...

This primarily effects Account Certifications with a Gift Worktag that is associated with an Endowment (True or Quasi). There are some Designated and Grant Worktags that have investment income as well.

What will you see related to your Endowment Revenue in Account Certifications:

Endowment Distribution
<ul style="list-style-type: none">• Seen in the 8905: Non-Mandatory Transfer Ledger Account• This transaction is the triannual endowment distribution. The unit is given their full distribution amount at the beginning of the fiscal year. This does not need to be reconciled. It is reconciled centrally.

Endowment Administrative Fees
<ul style="list-style-type: none">• Seen in the 8904: Non-Mandatory Transfer Ledger Account with Journal Source: Fundriver.• This fee reduces the principal investment and is reconciled centrally.

You will only see the 8905 ledger account transactions in: **September, December, & March**

You are **not required** to review or verify any activity:

- 8904: Non-Mandatory Transfers Ledger Account with the **Journal Source: Fundriver**
- 8905: Non-Mandatory Transfer – Endowment Distribution Ledger Account

Warning! If you have any other Journal Sources in 8904, you must review that activity.

Account Certification | Timeliness

The Account Certification must be completed:

30 Calendar days after the end of the month

Note: The policy does not say at the end of the month. If a month has 31 days, reconciliations will be considered past due on the 31st day of the month.

Remember:

Approved does not mean that all the problems have been resolved. It means the reports have been reviewed, variances have been identified and documented, and there is a plan to correct the variances.

Account Certification | Notifications

Notification will be sent in Workday for Account Certifications. They will come into your Notifications, the bell icon, on your Workday home page.

Notifications are sent to:

Preparer

- Account Certification is created.
- Reminder within 5 days of the due date.

Approver

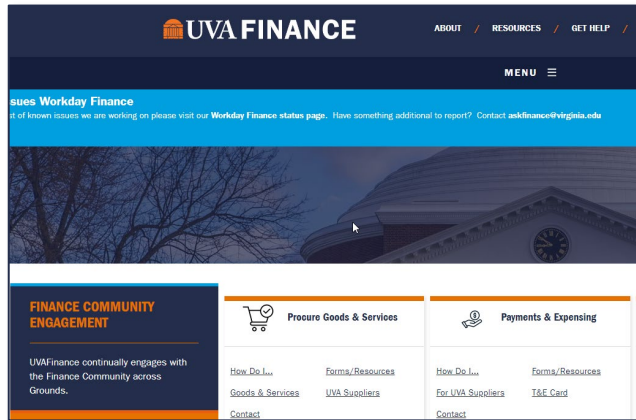

- Account Certification is ready for Approval.
- Reminder within 5 days of the due date.
