December 2021

What's the latest news?

End-to-End Testing: The testing team is almost through Cycle 2 and is quickly identifying and remedying defects in the system. This phase is integral so the team knows exactly what users will encounter in the system. Visit the [Community site here](#) to access testing updates.

Foundation Data Model (FDM) Sprint: Schools and units continue mapping, meeting regularly in their pod groups. The Dec. 31 deadline to have 85% of FDM Mapping complete is quickly approaching so we are providing resources to assist in reaching the finish line. Visit the [Community site here](#) to learn more and access FDM FAQs.

Records & Information Management Update: As we replace Oracle with Workday, schools and units may find that they have supplemental systems that they will keep and some that they will retire. Even if you will no longer use it, the system and its data can't simply be deleted. [Read the latest update on the blog.](#)

Future State Model

UVAFinance is working with ITS and HR on how we will manage and support Workday Financials after implementation and stabilization. The approach consists of a cross-functional support team including the Workday Stakeholder Support team reporting to Bill Ashby (AVP for Financial Strategy) and the Workday Systems Support team reporting to Augie Maurelli (AVP for Financial Operations). These two groups will have an integrated working relationship. [Read more on the blog.](#)
